

Boxy — Pack & Fit Puzzle

Cozy packing puzzle · Mobile · Mound Studio · Target launch May 28, 2026

Seeking publishing partner

One-liner

Drag & rotate items to pack a school bag with zero gaps — the cozy "almost fits" frustration that triggers **"one more try"** loops, plus a Boxy mascot IP designed for series expansion (Boxy Sort → Boxy Cafe).

AT LAUNCH · 3 THEMES

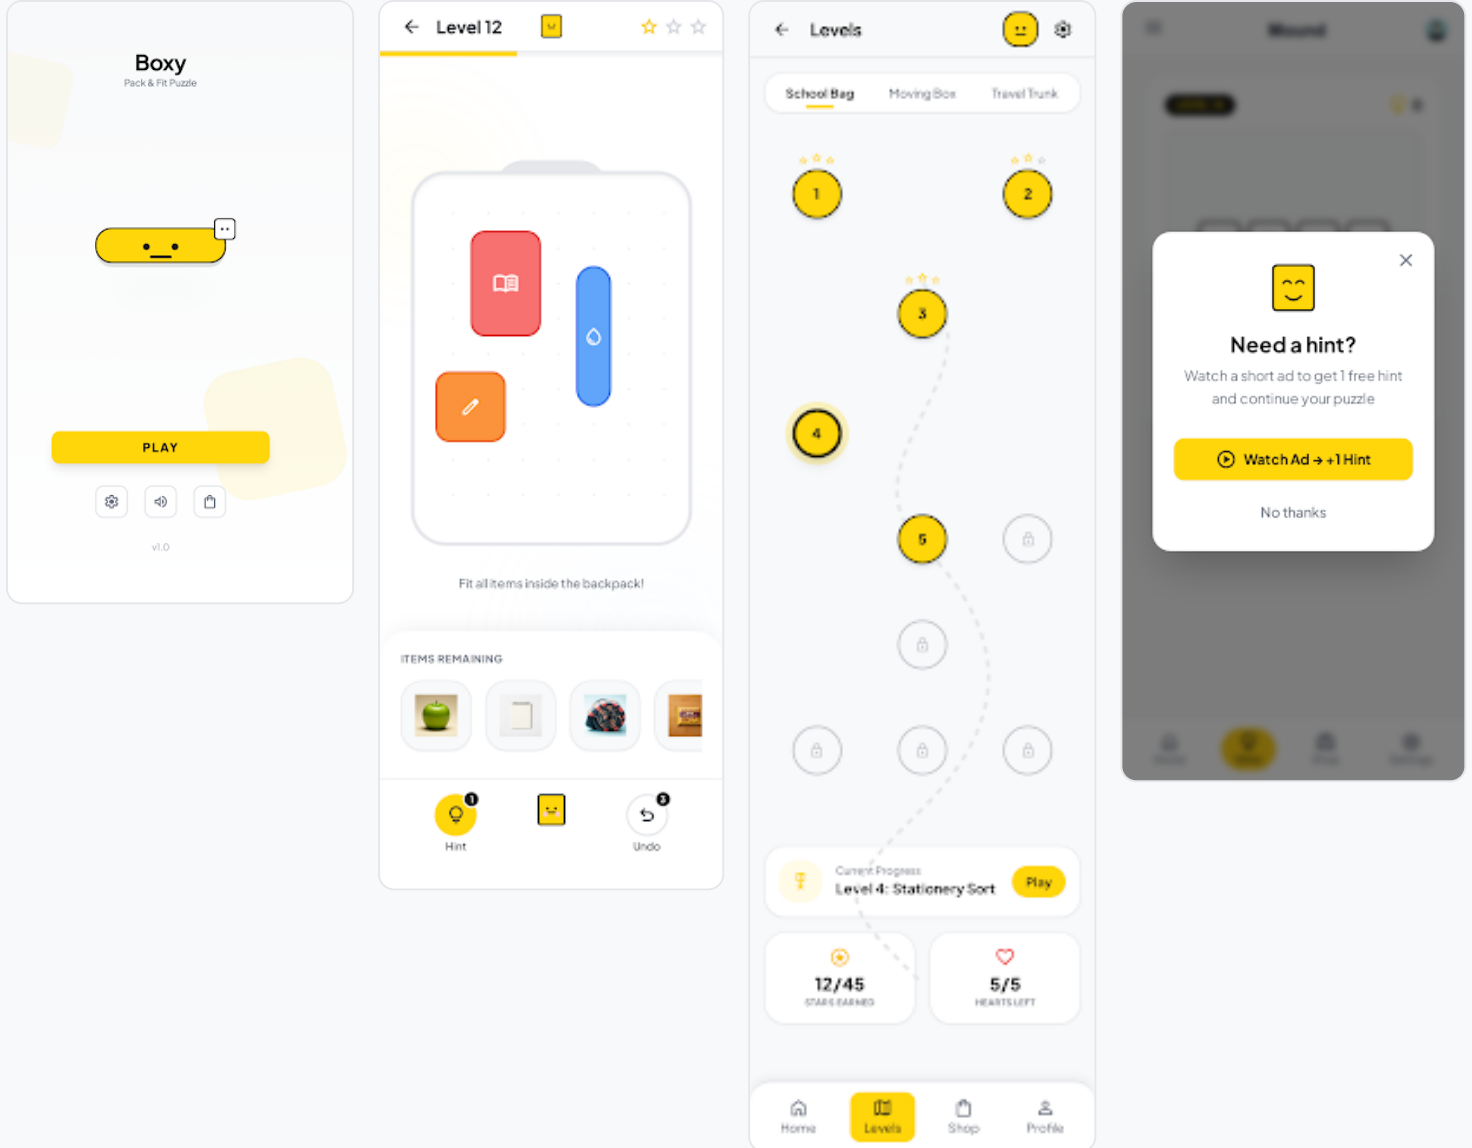

Why "almost fits" hook works

- **AppLovin data:** Fail-tone creatives are 26% of top-performing puzzle ads (2025).
- **Mechanic = ad:** Unlike deceptive fail ads, our gameplay literally delivers the 95% moment → D1 retention preserved (32% vs 14% for deceptive).
- **Korean ASO gap:** 정리/패킹 keyword space underserved (manual store search confirms low share).

Mound IP strategy — Boxy series

- **Boxy character:** yellow cube mascot reused across series, accelerating creative production turn-over.
- **Game 2 (Boxy Sort):** 2-week build using same infrastructure, June launch.
- **ASO compounding:** search "Boxy" surfaces entire portfolio.

Visual reference (Stitch MCP output)

v1.0 actual builds use Pretendard font + final art (Boxy mascot via Scenario LoRA, in progress)

Production status (as of 2026-04-29)

- Unity 6.3 LTS · Code skeleton 100% complete (5 modules, 22 .cs)
- 5 UXML screens · drag/rotate via Manipulator · ResultPopup wired
- 50 procedural levels generation algorithm (boxy-plan §B-3-2 reverse-fill)
- Save/Progression with v1 SaveVersion + migration path
- Ad/IAP/Analytics interfaces ready (NullProvider for dev, AppLovin/Firebase wrapper Week 3)

What we're seeking

- **UA budget & mediation expertise** — Boxy v1 mechanic + ad creative ready, but need scaled UA testing.
- **Geo expansion guidance** — Korea-first, English markets next, Japan mid-2026.
- **Hybrid casual feedback** — current build is cozy single-player; willing to add light meta if data supports.

Timeline

Apr 29	May 12	May 26	May 28	Jun
Day 1	Closed test upload	14-day pass (20 testers)	PRODUCTION LAUNCH	Boxy Sort dev 2-week sprint
